

In all times, God had souls that, insofar as it is possible for a creature, fulfilled the purposes of Creation, Redemption and Sanctification.

It is in the order of my Providence, my Justice and my Love, that ***in every era there has been at least one creature*** - with whom I have been able to share all my goods and - who has given Me all that she owes me as a creature.

Otherwise, what is the point of having maintained the world? In an instant, I would have destroyed it. It is precisely for this reason that *I choose victim-souls.*

The Divine Justice found in Me

- all that She should have found in every creature,
- all the good that She would have liked to see in every creature.

So, I find all that in the victim-souls.
And I share all my goods with them.

During my Passion, I had my very dear Mother
who shared all my Sufferings and all my Goods.

As a creature, she was attentive to gather in herself
- all that the creatures had to offer Me.

I found in her
- all the satisfaction,
- gratitude, thanksgiving,
- praise, reparation and correspondence.

Then came Magdalene and John.

And so on through all the eras of the Church.

To make these souls more pleasing to Me
and that I may feel drawn to give them everything,
I prepare them:

I ennoble their soul, their body, their features and even their voice,
so that a single word coming from them
- has so much Strength,
- is so graceful, sweet and penetrating,
that it touches Me and softens Me completely.
